To Our Patrons :

We believe we are one of the largest growers of vegetable plants in the United States, our facilities for the same being unexcelled, having over two and a half acres of glass especially for the purpose of growing plants for the winter and early spring trade.

On field-grown plants of cabbage, celery, tomato, etc., we can fill orders for almost any quantity at any time, making liberal reductions on large lots of same.

Non-warranty.—We wish it to be distinctly understood that while we take all possible pains to have all plants and bulbs true to name, we give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any of the plants or bulbs we send out, and will not in any way be responsible for the crop. Every order we receive will be executed on these conditions only, and they must be accepted by the customer when ordering goods.

Bedding Plants.—We have twelve large houses for the growing of bedding plants, and carry an immense stock and grow millions of them.

Our aim is to give value for value.

You are invited to inspect our stock.

We are enabled to ship promptly, as we are connected with two railroads, and two express companies, the Adams and United States.

We cannot hold goods on inquiries or enter orders until we know the customer is responsible or security good.

Conditions of Sale :

(To be read before ordering.)

These rules will be strictly adhered to.

The plants named are offered at the rates quoted provided not less than **twenty-five** of a variety in vegetable, and not less than **five** of a variety in flower plants, are taken. No order will be filled from this list for a less amount than **one dollar**, except to firms for whom we are constantly filling orders for their retail trade.

Unless orders so state, when out of any variety on an order we will substitute a similar one.

All goods are sent by express unless sufficient amount is sent to pay postage. When plants are ordered by mail and not sufficient amount sent to cover postage, which is ten cents per 100 on seed bed plants, and ten cents per dozen on pot plants, we will send plants to the amount only.

These quotations are made subject to crop failures and to goods being unsold upon receipt of order.

At the low prices these plants are offered **our terms are strictly cash with the order.**

Remittances should be made either in the form of an Express Money Order, Bank Draft, Registered Letter or Post Office Money Order.
